EDUCATION

San Jose State University

- B.S. in Computer Science | **GPA: 3.72** — May 2023
- Dean's List (Spring 2022, Fall 2022, Spring 2023)
- M.S. in Computer Science — Jan 2025 - Present

PROJECTS (github.com/angelayang2018)

Instagram Clone — February 2024 - March 2024

- Developed a full-stack Instagram clone using React for frontend and Firebase for backend services
- Implemented features such as image uploading, like/comment functionality, and user profile management
- Integrated Firebase authentication and Firestore database for real-time data management
- **Tech stack:** React, Javascript, SASS/CSS, HTML, Firebase

Portfolio Website — January 2024

- Designed and developed a website to showcase projects and expertise in frontend development
- Implemented the website using React, Javascript, HTML, SASS/CSS, and third-party libraries to create dynamic user interfaces and animations
- **Tech stack:** React, Javascript, SASS/CSS, HTML, GSAP

Food Inventory Management Website — January 2023 - May 2023

- Implemented a website that allows users to have real-time access to a food pantry and place orders in advance
- Constructed a Redis database to manage food inventory data, data retrieval, and storage processes and developed RESTful APIs using Node/ Express
- **Tech stack:** JavaScript, CSS, HTML, Node/Express, React, Redis

Math Ship — September 2021 - December 2021

- Developed an educational game using Java, JavaFX, Scene Builder, and SQL where users solve math problems by shooting numbers with a virtual ship
- Led a team of 3 other student developers by managing project timelines, facilitating effective team communication, and prioritizing key features, resulting in a manageable workload for the team and a successful grade on the project
- **Tech stack:** Java, JavaFX, Scene builder, SQL/MySQL

EXPERIENCE

Maui Condos — December 2023 - March 2024
Freelancer

- Designed and developed a property rental website for a property manager to increase exposure and rental rates
- Self-taught new technologies such as Tailwind to write more concise CSS styling and Git for a better understanding of version control
- **Tech stack:** React, HTML, Tailwind CSS, Figma

Data Annotation Tech — February 2024
Independent Contractor - AI Trainer

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, HTML, CSS, SQL
Framework /Libraries: React, Node, Express, Tailwind, GSAP, SASS
Databases: MySQL, Redis
Additional Tools: Command Line, Figma, Adobe XD, Git
